

Ease and Clarity

Feldenkrais and Meditation Workshops

Saturday workshops in 2020

Using simple mindfulness meditation and gentle movement, these workshops will aim to develop an experience of ease and clarity that you can carry into everyday life.

We will use Feldenkrais movement explorations to enhance self-awareness, interrupt unhelpful & unconscious patterns and tension, and enable greater ease in meditation.

Meditation brings more clarity to Feldenkrais movements – these approaches complement and enhance each other beautifully.

Facilitated by Julia Broome, a physiotherapist and Feldenkrais practitioner who has practised meditation in the Buddhist tradition for over 40 years and has studied and taught therapeutic approaches to meditation, using Mindfulness-Based Stillness Meditation.
